ONE MAN'S POWERFUL TESTIMONIAL

I needed help fast. I prayed and prayed for an answer to my problem and Veronique miraculously showed up. She was definitely the answer I was looking for. I wasn't sure in the beginning because what and how she teaches is so different from what I have ever experienced or could connect to at first. She encouraged me to stick it out, I did. Now the continuing results of success in my personal and professional life speak for themselves. She is brilliant in a very dramatic, compassionate, and understating way.

She gave me the truth, and even though she was gentle, she was very, very, very direct. It was hard at first to swallow because I thought I had all the answers, yet when I did use her guidance and process ... incredibly everything improved. Business improved without any extra effort and my relationship with the wife and children turned from sour to great. Her process is so simple you don't realize it is working until you stop using it. I can tell you this, I'll never stop. It takes commitment and dedication, yet anything worth anything does.

ONE WOMAN'S POWERFUL TESTIMONIAL

I was introduced to Veronique by a very close friend of mine who thought I might benefit from working with her, as I had been unsuccessfully trying to get a job in Austin for over two years. All I knew about Veronique was what my friend had told me, that she possessed an amazing amount of wisdom from many different sources. I was in a rut and not progressing towards any of my goals, so I took a leap of faith and began working with her in July. Today, I have a job and house in Austin. But more importantly, I am becoming a better person and am working on making these changes permanent. The changes in my life did not miraculously happen. It was hard and challenging work. But I know that **I would not have accomplished what I have without Veronique's guidance and *The Choice Is Mine*.**

I was living in New Orleans when I began working with Veronique. Along with thousands of others, I evacuated when Katrina came. And, just like the majority of people from the Gulf Coast, I never once thought that the evacuation would last more than a few days. When the extent of the devastation became clear, I felt paralyzed, as if I were in a permanent state of limbo, and overcome with anxiety. It was only after talking to Veronique and continuing my work with *The Choice Is Mine*, that I was able to free myself from that state of paralysis and fear. **Then, it was as if the flood gates of opportunity opened.** Within six weeks, I interviewed for and was offered a job (one that I had applied for back in July before Katrina), purchased a home (in a neighborhood I loved) with FHA financing, moved my belongs from New Orleans to Austin, and made preparations for a training program for South Sudan. I made the decision to buy a home in Austin before I had the job and found the perfect home the very first day I went looking at houses. Still, I came very close to blowing the purchase of my home because of an ill-founded idea that the seller was getting the better of me in the deal. A session with Veronique quickly helped me realize the "fears" that were behind my irrational reaction. Not only did the sale go through smoothly, but from the time I made an offer to the date we signed the final papers was less than a month.

I then had to go to New Orleans for my things. I was one of the very fortunate ones. Although there had been over three feet of water in my neighborhood, my house had not flooded. I only lost the things in the shed

TESTIMONIAL CONTINUED

in the back. I was under a tight deadline to move my things to Austin before I had to leave for Africa. Returning to New Orleans was terribly disturbing. I know that I would not have had the physical, emotional, or spiritual strength to have done this if I had not been reading *The Choice Is Mine* and having weekly, sometimes twice a week, sessions with Veronique. It gave me the knowledge that no matter whatever happened, I knew I could deal with it and that everything would work out the way it was meant to.

There was also the situation with the training program in South Sudan. South Sudan is an equatorial region with very hot weather and no modern conveniences, in addition to a great deal of political unrest. We had been in negotiations on this project before Katrina. It was originally scheduled to take place in September. After Katrina it was postponed to November. Generally, two or three of us conduct these trainings, but we were unable to find another trainer to accompany me. **My work with Veronique gave me the confidence** to go to South Sudan and conduct the program by myself. It was the most meaningful and challenging training event I have ever done. I encountered situations that I had never before faced. An incident occurred in the village outside our tent compound that terribly upset my program participants and had them fearing for their lives. I dealt with this and all the other situations very well. **And again, I know this was a direct result of my sessions with Veronique and reading *The Choice Is Mine*.**

Veronique's guidance and the wisdom in *The Choice is Mine* is not magic or a quick fix. It's about taking responsibility for your choices, but not beating yourself up about them. It's about recognizing your fears and facing them. It's about recognizing someone else's fears and not responding in kind. It's about knowing that you manifest what happens in your life and that whatever it is, you can handle it. It's about not being judgmental with yourself or others. It's about not trying to fix the rest of the world and accepting them as they are. It's about being and projecting love. It takes commitment and dedication; yet it can change your life, if you take the leap. **Take the leap.**

ANOTHER POWERFUL TESTIMONIAL

My experience with Veronique is one of many miracles. To you and I they are considered miracles yet in Veronique's world it is how life really is. I also am realizing that in using her tools and techniques and participating in her mentoring program that miracles are becoming a part of my everyday life, for my children and me.

There are no logical explanations to how it works – just that it does, exactly like a miracle works. You just bathe in the excitement and amazement of how your life is transforming exactly as you always wanted it to, you just did not have a clue as to how to do it. I have read many different wonderful self help books, I have attended many churches, yet none have given me the how to do or the one on one assistance to guide me out of my continual habitual lifelong patterns that created me staying in the same misery and drama that kept occurring in mine and my children's life.

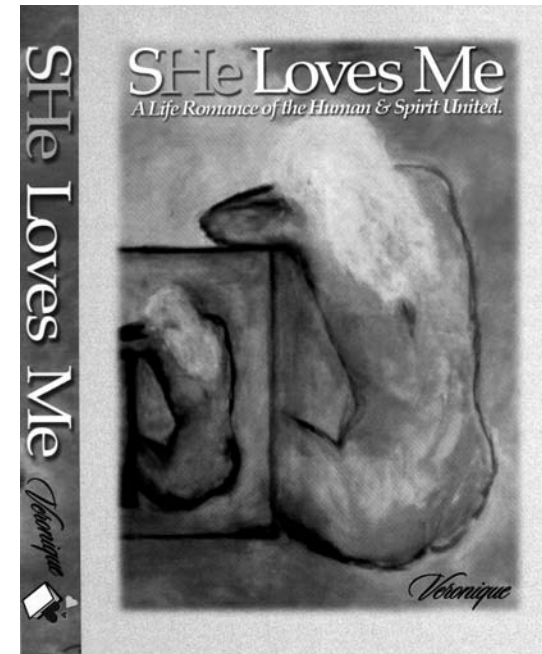

I have been able to step out of abusive limitations, secure a great job increasing my income twice the amount in a matter of a couple of months, move into a beautiful town-home off the golf-course, and most of all see my children feeling safe, happy and full of joy.

I am continuing everyday to create for my children and myself everything that we truly desire to have in our lives. **The sky is the limit with Veronique** and you really do see the unlimited possibilities begin to materialize in your life. This commitment I made to my self and my children was the greatest gift I could have given them and me. This is a commitment to do for yourself, and not to have it done for you.

With Veronique you will receive what it takes, and then some. You will be able to do for yourself anything and everything that you could ever dream possible. **These tools and techniques will last forever** and in the consistency of using them and applying them in your life, you can do anything. Life still happens, only difficulties become everyday miracles.

This is not about Veronique doing it for you. It is about you receiving this material and guidance, and using it yourself. If you use her materials exactly as guided, **you will get what you want.** If you choose not to use *The Choice Is Mine* as guided, you will not receive the same success. How do I know? Because I have done both. I am doing it now and I am receiving everything I have dreamed my life to be for my children and me.

HOW DID THEY DO IT IN SUCH A SHORT TIME?

What was the common thread between the choices that Charlotte Murphy, Buddy G, and Adella Wilson chose that enabled them to change their lives in such empowering ways.

What was the reason a noted author from the CHICKEN SOUP FOR THE SOUL series, stepped out from the crowd, and said, "WOW!" ?

Veronique's processes provide the how like no other. **Yet, within the HOW to DO IT there is an important ingredient that you must provide ~ commitment.**

A commitment from your heart *to you* ~ not because you think you should, *but*, because you know you must.

When committed from your heart, you operate from a place where you do not manipulate or use force to get what you want, **you begin to realize the true nature of power and how to use it wisely.**

Veronique's personal support and her processes simply gives the HOW! It will be your free will and heart filled commitment that creates the way and outcomes. From that foundation, the *HOW TO* that Veronique provides has a place in which to grow quickly and become fruitful.

In her own words:

We are not subjects of a random universe, spirit, or a god that picks and chooses different individuals to receive and some not to receive the life of their dreams. This is something to celebrate! For when we become conscious and responsible for our divine creative nature, we then inherit the power to inspire our life to its fullest. This goes beyond potential and probability it moves you into absolute. In this unconditional journey, we remember what we have forgotten and begin living our sacred spirits, our selves, together as one. In this journey, we advance our souls, our life, and those we touch, as we are meant to. Be open. Be willing to be seen, and do not forget your sense of humor!"
Expect the unexpected! Always through love,

THREE INTENSITIES OF WORKING WITH VERONIQUE

1. Using the processes on your own.

When you work with Veronique's processes on your own, you will begin to discover some of the conditional thinking that has you blocked. As a result, your discoveries open your life to greater freedom and prosperity. "...her process is so simple you don't realize it is working until you stop using it."

2. Working with Veronique at:

- **INDIVIDUAL CONSULTATION:** A One Time 30-Minute Consultation

- **LEVEL TWO:** A Comprehensive 4 hour Evaluation plus a written report, an audio of the evaluation, a 30-min spot check session during the month of the evaluation, plus her materials.

These two different levels offer great beginnings to receive clear direction and result oriented insights from a Master Life Teacher. "...She moves to the truth quicker than the speed of light- this is what really makes a difference." "...Her insight and directness went to the heart of my problem in less than 15 minutes. The problem went away and the past was just the past and not to be carried in to the now and future. ... She also gave me insight into how I was wired. ... Unbelievably she put me on this new course of thought and action."

3. Working Directly with Veronique at:

- **LEVEL THREE:** An on-going Master Support Program

You can create the life of your dreams more quickly because a Master Life Teacher has personally supported you. Veronique is recognized to "know" with extraordinary accuracy the precise nature and scope of what is limiting you. Timing is something that is elusive - therefore, it is recommended that you not be attached to timing, or length. Veronique's skill lies in her mastery to quickly see those issues that are holding you back and provide you with tools to shift that influence. As a result, her fees are not based on how much time she spends with you, they are based on the results that she can help you achieve.
